UPDATE FOR PARENTS DURING PANDEMIC

Dear Parents,

It is almost a year now that the Coronavirus 19 has made our lives so different and challenging. Our students and staff had to make adjustments in learning and teaching so that education can continue in the homes in ways we hope was successful through learning packets and virtual learning. We have been communicating through phone calls, email, letters home, short reminders on School Reach and we will continue to do so. We will continue to offer free meal services, too.

It has not been easy, but there is hope in the near future that this pandemic will be behind us and we can resume school as we once knew it. Learning in the classroom! Until this happens, everyone still needs to take personal responsibility to wear a mask, wash hands, social distance, avoid crowds, and get vaccinated when it becomes available for you and your children.

You have experienced what educating students is like during this pandemic and I would like to hear from you any ideas or suggestions on your needs at this time. Please let me know. I understand the social & emotional impact this learning at home has caused for you and your child(ren). You can be a supportive parent by creating a daily schedule, being honest and patient with everyone, provide necessary breaks.

Navajo Nation, the State of Arizona, and GSCS is working together to see how schools can be reopened safely, increase internet access for all learners, and improve student engagement. We thank you for any support when it comes time to reopen school. We will continue to update you as new information becomes available and inform you immediately if our school plans to reopen prior to the end of this school year. We appreciate your support in making this critical decision.

Thank you, be safe and stay well.
